SWIMSHORTS

Design 01

Dear costumer, the submission of this design template is NOT mandatory. Alternative methods of communicating your design idea to us include a written description an/or the use of your own template or sketch.
The design in the template may deviate from the final result.

In the standard sublimation printing process, fabric patterns are printed first and then sewn together to create the final product. Due to this method, please note that the alignment of the pattern at the seams may not always be exact.
